Let U Down

Those Darlins

I cant help if I let you down
I cant help if I let you downYou know it recently occurred to me
This is all just your wet dream
I never meant to pacify
The needs of another
Who cant satisfy meI cant help if I let you down
I cant help if I let you downWell your troubles always seem to bring
Too many pills and telephone rings
I never meant to pacify
The needs of another
Who cant satisfy meI cant help if I let you down
I cant help if I let you downI never thought about eternity
Till you lapped your tongue at me
I never meant to pacify
The needs of another
Who cant satisfy meI cant help if I let you down
I cant help if I let you down
I cant help if I let you down
