Reaver

Angel Corpse

Total war witchery damned conjuration
Leather winged covens of death scar the skies
Rivers of fire, blood and defamation
Bloated seas of rage steep fearless eyesDemonthrong clatter on cloven hoof
Ten thousand exterminating angels
War vomits writhe lust up in the throat
Rended bodies become one with the soilsBestial storm of mutilation
Reaver
Hail blasphemic revelationWicked regent ascends beyond
The crimson breath of chaos
A pestilential gloaming
Borne on scorpion windsReaver...Total war witchery damned conjuration
Leather winged covens of death scar the skies
Rivers of fire, blood and defamation
Bloated seas of rage steep fearless eyesObey commands of ritual malevolence
Death and life perverse unite in infamy
The cursed few- proud bestial saviors
Rapture: the rancid flocks perish in vainBestial storm of mutilation
