

Straight Outta Vagina

Pussy Riot

[Verse 1]

Does your vagina have a brand?
Let your vagina start a band
If your vagina lands in prison
Then the world is gonna listen
My vagina is tough and dangerous
Shaking up the major labels
Vagina gonna take the stage
Cause vagina's got a lot to say

[Chorus]

Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)
Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)

[Verse 2]

Vaginas gonna win the race
Vagina gonna play in space
Vagina gonna top the charts
Vaginas fill your shopping carts
Vaginas in the art museum
And people buying tickets just to see 'em
Put your pussy on a diet

Then paparazzi gonna start a riot [Chorus]

Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)
Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)

[Verse 3]

V-A-G-I-N-A

We got pussy for days
Back up, pussy don't play
First they come and then they stay
You gon' always gonna find it when you need it
You gon' always come back and repeat it

Oh, 'cause you know where home is
Go down like you know what dome is Woah now man, I'm losin focus

Va jay jay on hocus pocus
Don't act like you don't notice
Girls run it like U.S. Open
Throw a fit right now (right now)
Put up a fist right now (right now)
Cause you the shit right now (right now)
Probably acting like a bitch right now [Chorus]

Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)
Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?) [Verse 4]

My pussy, my pussy
Is sweet just like a cookie
It goes to work, it makes the beats
It's C.E.O., no rookie
From senator to bookie
We run this shit, got lookie
You can turn any page, any race, any age
From Russia to the States

We tearing up the place I rip shit like Sinead O'Connor
I wear my vag as a badge of honor
I take pride in the way we rise
One love to Maya Angelou, the 8th world wonder
How we do it all, sometimes I wonder
I could play nice or I can bring that thunder
So sad I gotta end right here

But this vagina gotta go make them numbers [Chorus]
Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)
Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)
Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)

Don't play stupid, don't play dumb
Vagina's where you're really from
(Where you from? Where you from?)
(Where you from? Where you from?)
