

# Garden Road

## Rush

Passin' down this garden road  
I've passed it many times  
Beauty flashing in the air  
Garden's many vines  
Today I see the answer that I was wrong  
Oh man, my questions on this garden road One day this path will be free  
And this garden road is for you and me Nothing seems to pass my grip  
And my every thought  
Judging by my memory  
Has me by some hold  
Answers to the questions I must know  
Most of them are questions of this garden road  
One day this spell will be free  
And this garden road is for you and me  
Passin' down this garden road  
I've passed it many times  
Beauty flashing in the air  
But I'm really fine  
You see, I see the answer, I must know  
Oh man, my questions of this garden road One day this path will be free  
And this garden road is for you and me
