restraint

The Grey Wolves

Like I feel, I'm so uncertain
I'm all edgy, I need an extra nation
It takes a fool to jump into the fire
Unless the take is too good, you can't return
So, when did you know
There was an issue with these greedy pigs?
So let's take, take what we're feeling
Now we can change what they've been doing
With no restraint, no restraint
Like I can feel, I know it hurting
It's who cares, it's really disconcerting
They pull the strings and we run in the cold
While they float down on their parachutes of gold
So, when did you know

There was an issue with these greedy pigs?
So let's take, they've always been there
Now we can see, what they've been doing
With no restraint, now we can see
Who they've been screwing, it's you and me
They don't live like you and me
It's a different kind of luxury
Drawn on by the pain of the nicotine
So let's take, they've always been down
Now we can see, what they've been doing
With no restraint, now we can see
How they've been screwing, what they have ruined
With no restraint, no restraint
