

Not For Long

Trine Rein

This one is faster than the one you've got
This one will save you space
You better snatch them up while they are hot
Before they get replaced Can't turn your cheek to what's going on
For you might miss a beat
The audience is many million strong
It's time you took your seat It's the latest, it's in style
It's the intelligent choice
What's the use in screaming enough
When you're the only voice? I walk around my institution of shame
Where I feel pressure to spend
If I collect more than what I truly need
Then what will it amount to in the end? You need this, you want that
There's no better way
If you can get it here from me
Then why delay? Well something keeps holding me back
Something tells me I'm on the right track
But not for long, no not for long Something keeps making me see
That not everything was made for me
But not for long, no but not for long
Not for, not for, not for Don't be late, don't miss out
On the experience
If we don't get you now we'll get you later
You've got no defense Well something keeps holding me back
Something tells me I'm on the right track
But not for long, no but not for long Something keeps making me see
That not everything was made for me
But not for long, no but not for long
Not for
