The One You Want

Angelous

All poison and thrills, a handful of pills
Waiting around
Nails cut to the quick, you broke what you fixed
You're so underground
What you waiting for?
What you waiting for?
It's said and done
But it's too late to turn your age around
She's not the one you want
One settles a score with a trip to the floor
Look what we've found
Make sense of the scene, keep a routine
Standing on sound
What you waiting for?
What you waiting for?
It's said and done

But it's too late to turn your age around
She's not the one you want
Yeah, it's too late to turn your age around
She's not the one you want
How do you do it?
With backs against the wall
How do you ruin all these promises?
Promises and nothing else
What you waiting for?
What you waiting for?
It's said and done
But it's too late to turn your age around
She's not the one you want
Yeah, it's too late to turn your age around
She's not the one you want
So tell me something that I didn't know
