Almost Christmas

Josh Wilson

Christmas lights, shinin' bright, what a sight I wanna feel this way, every day of my life Oh I can hear the bells ringin' out loud and it sounds like it's almost Christmas
In the street, families caroling, singing the same noel the angels sing
It's the birth of peace on the earth Tell me have you heard that it's almost Christmas?
And I feel like I'm eight years old again Waiting for December 25th It's almost Christmas I'll be home soon makin' memories So excited I can hardly sleep It's almost Christmas Day
There's somethin' new in the air, everywhere Makin' me take the time, time to stop, time to share Till the people I love the most really know Cause it's almost Christmas

gifAnd while the snow is comin' down, all around I'll take a moment to remember how it's the birth of peace on the earth Tell me have you heard that our God is with us?
I feel like I'm eight years old again Singing 'bout that boy in Bethlehem It's almost Christmas And I'll be home soon makin' memories So excited I can hardly sleep It's almost Christmas Day!
