

Love Me Like You Do

Ruth

Cover it up all that Ive done
Wipe it away with the stains of Your blood
Cause this is the last time that Im letting You down
All of the past times, couldnt figure it outAnd I was thinking when I was sinking
Shouldnt be scared of believing
Cause this is the last time that Im letting You down
I think that I figured it outYou didnt have to love me like You do
You take care of me when I am running from You
Love, loveAnd we all fall so short of loving You
But this is the last time that Im letting You down
All of the past times, couldnt figure it outAnd we all fall so short of getting through
This is the last time that Im letting You down
I think that I figured it outYou didnt have to love me like You do
You take care of me when I am running from You
Love, loveAnd we all fall so short of loving You
This is the last time that Im letting You down
I think that I figured it outYou didnt have to love me like You do
You take care of me when I am running from You
Love, loveYou, You didnt have to love me like You do
You take care of me when I am running from You
LoveLove, love
