

# Total Disaster

## Destruction

I was born in a dark winter night  
thunder and lightning greeted me  
now it's the time to begin to fight  
kingdom of heaven, I can't see  
My home is the bloody hell  
at the place where Satan rules  
the world is now like a big shell  
the fire of hell will destroy the fools  
[CHORUS:] I can never trust the virgin preacher  
I can never believe in Jesus Christ  
It's all right 'coz Satan is my teacher  
people hidden them when we arised  
I command and you get down on your knees  
we sacrifice infants on Satan's order  
come taste blood, our living grease  
headless bodies found, one is your daughter
