Wait For Love

Tweedy

Honey Iâ€™m worried, the fires cold
he tired souls have lost their way
Stay a woman find a song, then away
Alone and strange, out of range

Iâ€™ve heard you say dreams donâ€™t matter
But itâ€™s why we hold on as the days pass
And wait for love

On and on waltz through the distant day
Scatter parades as the sweet slips away

Oh, I guess you say we donâ€™t matter
And I bet that could be true
But I still wanna look in your eyes and say
Iâ€™ll wait for you

Oh, I guess you say we donâ€™t matter
And I bet that could be true
But I still wanna look in your eyes today
And wait for love

Letâ€™s wait for love
