

# He About To Lose Me

Britney Spears

I'm touching hands with someone seriously beautiful  
I feel it burning and I know I'm standing far too close  
I'm telling lies and if it shows I see that he don't care  
I know he wants to take me home and get on outta here  
    But I got someone waiting at home  
    He says he in love but lately I just don't know  
    He don't see me or make me feel hot  
Banging in the club with all my ladies and he don't know that  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    I feel my body losing focus as he touches me  
    And I should go but I can't overcome this chemistry  
He pulls me close before he whispers something in my ear  
He says he wants to take me home and get me outta here  
    I got someone waiting at home  
    He says he in love but lately I just don't know  
    He don't see me or make me feel hot  
Banging in the club with all my ladies and he don't know that  
  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    Someone by the bar keeps looking at us dancing  
    I see him staring at me, I see where he wants to be  
    Someone by the bar keeps looking at us dancing  
        I gotta, I gotta go, he don't know that  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
    He about to lose, 'bout to lose, 'bout to lose me  
        He about to lose me  
I'm touching hands with someone seriously beautiful
