

# My Bae

## Vado

Swing my way  
Let me take you somewhere that I'm headed, baby  
You can play  
Treat you like my hustle, you know I'll be on that all day I'm on the block serving yay to make it straight  
You my bae  
You my bae  
You my bae Ambitious, I am vicious  
If you watching arms in the party you can't miss us  
Watch this galore, ladies watch us for sure  
Top of the floor, vodka bottles to pour  
Rock with your boy, we can sail out to Malibu  
Her swag powerful, Chanel flower, you  
Goddamn, who be styling you?  
Like I wish I was you, tell 'em to look our view  
I love the flow, it's a Harlem thing  
I blow trial, they watch the court, no college game  
I done did keys, that's not a thing  
I run these MCs like all these queens  
When the air thinner, you found me  
Can tell you don't travel, you need a trip out the county  
If I'm that nigga then crown me  
This ain't like I have a problem having women around me Swing my way  
Let me take you somewhere that I'm headed, baby  
You can play  
Treat you like my hustle, you know I'll be on that all day I'm on the block serving yay to make it straight  
You my bae  
You my bae  
You my bae On the boardwalk, I'm feeling like...  
Lot of women I ran through  
If I want a click that's something I make his man do  
Balls talk since day one  
Used to play the block with a rock J...  
Was too young hoping my day come  
Now I'm pulling up with the baddest  
So bad that she made the moment a classic  
So sad that she killing them in them classic  
We call them throwaways but baby Swing my way  
Let me take you somewhere that I'm headed, baby  
You can play

Treat you like my hustle, you know I'll be on that all day I'm on the block serving y'all to make it straight

You my bae

You my bae

You my bae Tuxedos and bowties

Black tie affair, yeah, we so fly

No matter where we go by

What you wanna wear, we can go by

We taking over like and what?

Let me take you somewhere that I'm headed, baby
