

# This Side Of Me

## Savage Garden

I want to move in time with you  
I want to breathe in rhyme with you  
I want to feel the deepest kiss  
And I want to know you feel like this For this one time, one time  
Let my body do what it feels  
For this one time, one time  
Let this fantasy become real  
Because I'm not afraid  
To let you see this side of me  
Oh, I, no, I want to feel your hand in mine  
And I want to feel that rush in my spine  
I want to wear the scent of you  
And do all the things you want me to So, baby, there's a one time, one time  
Let my body do what it feels  
For this one time, one time  
Let this fantasy become real  
Because I am not afraid  
To let you see this side of me I feel the danger, the separation  
I wanna take your invitation  
This separation, it's all around  
I need this side of me  
Side of me, this side of me I want to move in time with you  
And I, I want to breathe in rhyme with you  
I want to stitch my clothes in sin and in the dark  
I want to find that door and go within For this one time, one time  
Let my body do what it feels  
For just one time, one time  
Let this fantasy become real  
Because I am not afraid To let you see this side of me  
No, I am not afraid  
To let you see this side of me Side of me, this side of me
