

# Put It into God's Hands

## The Browders

the call came from the Doctor to deliver bad news. now you're so troubled you feel you're gonna lose. there is a  
healer the best known to man . His practice is perfect just put it into God,s hands  
put it into God,s hands he knows what to do He,s never too busy to care for you put it into God,s hands you  
won,t be denied tears fill your eyes it,s time to decide put it into God,s hands  
this life doesnt come easy when you try by yourself the load gets too heavy but at the throne you,ll find help  
God,s more than able we can,t but he can every need he will handle just put it into God,s hands

repeat the chorous twice and tag put it into God,s hands
