

Some Kind of Zombie (Criscoteque Remix)

Audio Adrenaline

I must have been confused or vain
To let this evil in my brain
Lord, did I enjoy the change
That You made inside my heart? Oh, here they come, Im not afraid
Theres no temptation I cant evade Stand up straight, look through the haze
I begin to walk through the maze
Here they come, theyre all upon me
But Im dead to sin like some kind of zombie I hear You speak and I obey
(Some kind of zombie)
I walked away from the grave
(Some kind of zombie)
I will never be afraid
(Some kind of zombie)
I gave my life away Im obliged and obey
Im enslaved to what You say Oh, here they come, Im not afraid
Theres no temptation I cant evade Stand up straight, look through the haze
I begin to walk through the maze
Here they come, theyre all upon me
But Im dead to sin like some kind of zombie I hear You speak and I obey
(Some kind of zombie)
I walked away from the grave
(Some kind of zombie)
I will never be afraid
(Some kind of zombie)
I gave my life away Stand up straight, look through the haze
I begin to walk through the maze
Here they come, theyre all upon me
But Im dead to sin like some kind of zombie I hear You speak and I obey
(Some kind of zombie)
I walked away from the grave
(Some kind of zombie)
I will never be afraid
(Some kind of zombie)
I gave my life away
(Some kind of zombie) I will never be afraid
(Some kind of zombie)
I will never be afraid
(Some kind of zombie)
I will never be afraid
