

# Antidepressant

## Lain

Im serving 12 to 15, working the coffee machine  
    Ive got a license to fly underneath the radar  
    Shes about 50 feet north, 'As Seen On TV' store  
I know shes gonna tune me in sooner or laterWith my medication, I will be fine  
    With my medication, I will be fine  
With my medication, I will be, I will be fineI said, Im trying to write my novel  
    She said, Neither am I  
And either way I saw you reading 'No Depression'Youre doing nothing, Ill come over  
    Well watch '6 Feet Under'  
And then well maybe get around to your conditionWith my medication, I will be fine  
    With my medication, I will be fine  
With my medication, I will be, I will be fineFirst shes gonna tire of my fixations  
    Then shes gonna tire of my face  
    Im gonna need a new affectation  
Im gonna need a new one everyday, everydayWith my medication I will be fine  
    With my medication, I will be fine  
    With my medication, I will be, I will be fine
