

Face Down In the Right Town

Earlimart

So you did what you thought was right
Oh giving up the fight
The only way that we knew was wrong
Got me hanging on and on
Its everything you want
Everything you need And the people who counted on
Let you down one by one
So be sure what youre asking for
Telephone dont ring no more
Its everything you want
Everything you need Ooh in the right crowd
Face down in the right town
No good uptown
But maybe somehow
Well get back home Dont care who walks through the door
The life I paid twice for
Rearranging the furniture
It reminds me of who you were
Its everything you want
Everything you need Ooh in the right crowd
Face down in the right town
No good uptown
But maybe somehow Ooh in the right crowd
Face down in the right town
No good uptown
But maybe somehow
Well get back home Well get back home
Well get back home
Well get back home
