

Remind Yourself

Zach Robinson

We're always on display
People question what we say
Seems like evry move we make
There's someone watching Don't want to lose you to the crowd
So I turn the music loud
So we don'y have to listen to them talking You're scaring me
Cause you'd do anything
And it's tearing me apart You hear your name in every song
You're happy when the spotlights on
You need so badly to belong
But don't forget to talk to me
Remind yourself to breathe If i's all so bitter sweet
If you're feeling incomeplete
put your trust in me
Cause i believe you need me Lose your face to the world
And just try to be my girl
All this crazy stuff will mess
You up comepletly You're scaring me
Cause you'd do anything
And it's tearing me apart You hear your name in every song
you're happy when the spotlights on
you need so badly to belong
But don't forget to talk to me
Remind yourself to breathe We got to get it back
We got to get it back
We got to get it back
We got to get it back again
We got to get it back
We got to get it back...again You hear your name in every song
you're happy when the spotlights on
You need so badly to belong
But don't forget to talk to me
Remind yourself
Remind yourself
Remind yourself to breathe
