

I Got Joy

Joshua Rogers

Hey I woke up today, good in health about put a smile on my face
I got joy, I got joy, I got joy
Life health and strength in my body closed in my right mind
So you know I got joy, I got joy, I got joy
New day, New grace and mercies, new praise
So you know I got joy, I got joy, I got joy
When I think about the things you made, I get caught in your presence
And you know its all full of joy, I got joy, I got joy
Weeping may endure for a night
You know you know you know, you know its flooding over
So, that why no matter what it looks joy comes in the morning light
I know, I know, I know, I know I feel it taking over
So if love joy peace you got everything that you need
Hey I really cant complain so you know I smile to redeem
So you know I got joy, I got joy, I got joy
Can't nobody do me like you do got me feeling fresh and so brand new
So you know I got joy, I got joy, I got joy
See im breaking chains from praise taking shackles off my feet let me dance
I got joy, I got joy, I got joy
So when I fuss and fight you keep on blessing me its impossible for me not to be full of joy
Weeping may endure for a night
You know you know you know, you know its flooding over
So, that why no matter what it looks joy comes in the morning light
I know, I know, I know, I know I feel it taking over
So if love joy peace you got everything that you need
Joy, joy, joy, joy, joy just cant take it away, 2X
I got joy I got joy I got joy I got joy I got joy I got joy just can't take it away
Its all mine, Its all mine, It's all mine, Its all mine, Its all mine, It's all mine, just can't take it away
This joy, This Joy, This joy, This joy, This joy, Just can't take it away
Hey I woke up today, good in health about put a smile on my face
I got joy, I got joy, I got joy
