All Those Nights

aVid*

One more year and I'll be heading out on my own
Leaving friends and the place that I call home,
I don't wanna go
I just need to know that I can come back
I need to know, I only need to know that
You'll be here when I come back home
'Cause I don't wanna miss
A single autumn evening here with you like this
I don't wanna missAll those nights we danced by the moonlight
Conversations about nothing til midnight
You and I huddled close til the daylight came
Remember the colors reflected in your eyes,
The scene painted golden
As the sun rises over you and me, darlingOne more year, we'd better make the best of this one
You just can't beat the weather here in autumn
Please stay close to me
I just need to know you're gonn call me
I need to know that everything will all be okay
While I'm away
'Cause I don't wanna miss
A single autumn evening here with you like this
I don't wanna missAll those nights we danced by the moonlight
Conversations about nothing til midnight
You and I huddled close til the daylight came
Remember the colors reflected in your eyes,
The scene painted golden
As the sun rises over you and me, darling
(2x)Over you and me, darling
Over you and me, darling
