

# Devil Side

## Foxes

Run and hide, it's gonna be bad tonight  
Cause here comes your devil side  
It's gonna ruin me  
It's almost like slow motion suicide  
Watching your devil side get between you and me  
So tell me what I need to do  
To get myself away from you  
To keep myself from going down  
All the way down with you  
Still I want you, but not for your devil side  
Not for your haunted life  
Just for you  
So tell me why I deal with your devil side  
I deal with your dangerous mind  
But never with you  
Who's gonna save you now?  
Who's gonna save you?  
I can't lie but I do miss those times  
We were on the high  
I thought it would never end  
But you and I have come from the same long line  
Good kids with a devil side  
Just going around again  
So tell me what I need to do  
To get myself away from you  
To keep myself from going down  
All the way down with you  
All the way down with you  
I want you, but not for your devil side  
Not for your haunted life  
Just for you (just for you)  
So tell me why it's always your devil side  
It's always your dangerous mind  
It's never you  
So who's gonna save you now?  
Who's gonna save you?  
So tell me what I need to know  
To make you want to change it all  
To keep myself from going down  
All the way down with you  
All the way down with you  
I want you, but not for your devil side  
Not for your haunted life  
Just for you  
So tell me why I deal with your devil side  
I deal with your dangerous mind

Never with you  
Who's gonna save you now?  
Who's gonna save you?  
Who's gonna save you now?  
Who's gonna save you?Ooh oh  
Who's gonna save you now?  
Who's gonna save you now?  
Without going down?
