

# Famous

## Eli Young Band

I wish I was famous  
Yeah, I wish I was famous  
'Cause if I was famous  
You'd know my name

I've seen you downtown  
I've walked up to you  
But the words wouldn't come out  
And you never knew

'Cause I'm just a guy just down the street  
I'm just a face you've never seen  
I'm just a heart you don't know is beating  
But if I was famous, yeah, if I was famous  
Hey, if I was famous you'd know my name

Wish I was a big star  
Up on the screen  
And driving a fast car  
Like Stevie McQueen

Yeah, I wish I was someone  
Instead of a no one  
'Cause if I was someone  
Baby, you'd know my name

Maybe someday I'll understand  
What it feels like to hold your hand  
Maybe someday but until then

I'm just a guy just down the street  
I'm just a face you've never seen  
I'm just a heart you don't know is beating  
But if I was famous, yeah, if I was famous  
Hey, if I was famous you'd know my name

But if I was famous, yeah, if I was famous  
Hey, if I was famous you'd know my name  
Baby, you'd know my name  
If I was famous, yeah, if I was famous

Hey, if I was famous, baby, you'd know my name
