

We Got The Love

Restless Heart

When the good Lord was handing out the best things from above

We got the love, we got the love

I know we don't have a lot of money

We can barely keep the bills paid honey

But when we're in each other's arms, who needs all that stuff

We got the love, we got the love

Don't need the finer things

Fancy cars or no diamond rings

I wanna roll down a simple road

Rock with you till we get old

Sometimes life's a desperate situation

Sometimes it's just grim determination

But I know we'll do what it takes to make us tough enough

We got the love, we got the love

We got the love, we got the love

Don't need the finer things

Fancy cars or no diamond rings

I wanna roll down a simple road

And rock with you till we get old

Built this house of bricks and stone together

Trying to make it strong to last forever

But if these walls come tumblin' down we still ain't givin' up

We got the love, we got the love

We got the love, we got the love

Roll down a simple road

And rock with you till we get old

We got the love

Roll down a simple road

And rock with you till we get old

We got the love

Roll down a simple road

And rock with you till we get old

We got the love

Roll down a simple road

And rock with you till we get old

We got the love
