Muscle Relaxants

The Rural Alberta Advantage

Well hanging out on muscle relaxants,
Trying hard to see the worst that can happen now
I never know what's holding you up
And I never know when I'm holding you too much.Wouldn't you try to find something else to bring you up
You don't know what you like.
And I could find something else to bring you up
You don't know what you like.The party was worse than imagined,
And I never know when I'm holding you awake.
Never know what you like,
And I never know when I'm holding you tight.
Never know what you find,
And our hearts will slow though I know you hold me tight.Wouldn't you try to find something else to bring you up
You don't know what you like.
And I could find something else to bring you up
You don't know what you like.
