

# Muscle Relaxants

## The Rural Alberta Advantage

Well hanging out on muscle relaxants,  
Trying hard to see the worst that can happen now  
I never know what's holding you up  
And I never know when I'm holding you too much. Wouldn't you try to find something else to bring you up  
You don't know what you like.  
And I could find something else to bring you up  
You don't know what you like. The party was worse than imagined,  
And I never know when I'm holding you awake.  
Never know what you like,  
And I never know when I'm holding you tight.  
Never know what you find,  
And our hearts will slow though I know you hold me tight. Wouldn't you try to find something else to bring you  
up  
You don't know what you like.  
And I could find something else to bring you up  
You don't know what you like.
