

Flash Tan Queen

Reo Speedwagon

Diamond studded man, ruby coated plan
Makes my heart ache to think that money could take you from me
Midnight dream almost made me scream
Nightmares came now that money took you from me, yeah
Well, you're a flash tan queen from the southern shores
Like a rotten peach layin' in the Georgia sun
Well, you can lay all day, get your back real brown
But a dollar can take away your frown
Fat rat queen, golden limousines
All of these things just come between you and me, yeah
Lacy white gown just makes me wanna frown
My heart aches now that money's taken you from me
Oh, oh you're a flash tan queen from the southern shores
Like a rotten peach layin' in the Georgia sun
Well, you can lay all day, get your back real brown
But a dollar can take away your frown
Shakes me apart, make believe hall
I'm feelin' like a flower stuck on somebody's wall
Midnight dream Lord it made me scream
My heart aches now that money took you from me
Oh, oh you're a flash tan queen from the southern shores
Like a rotten peach layin' in the Georgia sun
You can lay all day, get your back real brown
But a dollar can take away your frown
Oh, you're a flash tan queen
Flash tan queen
Oh yeah you're a flash tan queen
You're a flash tan queen
Oh yeah
