

Take Your Time

Spiritualized

Take your time
Back up a little bit
C'mon now, people
Get yourselves out of it No chains can hold me
No walls confine me
C'mon now, people
C'mon and slide with me 'Cos I'm blind
But not as blind as blind as you
I'm sick, there's not a thing
I wanna do about it
I'm dumb but now
I wanna mouth off about it Yeah, I'm tired of it all
I guess that I am through with it all
Yeah, I'm tired of it all
I guess that I am through with it all Take your time
Back up a little bit
C'mon now, people
Get yourselves out of it No chains can hold me
No walls confine me
C'mon now, people
C'mon and slide with me 'Cos I'm blind
But not as blind as blind as you
I'm sick, there's not a thing
I wanna do about it I'm dumb but now
I wanna mouth off about it
I'm tired of it all
I guess that I am through with it all Yeah, I'm tired of it all
I guess that I am through with it all
I'm tired of it all Take good care of it, babe
You know it's goin' slow
But it's comin' your way You know we keep talking 'bout a revolution
But the air's so thin
And you're still polluting it You know we keep talkin' but it's so frustrating
Well, you know we keep talkin'
But theres no mistaking it Take good care of it, babe
Take good care of it, babe
Take good care of it, babe
Take good care of it, babe
