Beautiful and Blind

Junior Doctor

When the daylight fades, i only see the dark
she lies awake and counts the stars.
When summer goes away, i only feel the cold
she looks for somebody to hold.
She picks me up when i am breaking
always finds me when i am lost.

(Chorus)
Her heart is built to take it, my heart is complicated
She thinks love is an easy thing to find.
My heart has seen it all and her heart is beautiful and blind
Beautiful and blind
Beautiful and blind
Beautiful and blind

When it falls apart, i feel like its the end
she finds a way to start again.
and after all the scars when i feel so alone
she shows me how to let it go
she holds me down when i am shaking
wont give up when im giving in

(chorus)

see the way love makes a person be
down deep and so imperfect
she finds love in a place that i cant feel
she feels hope when it starts to fade way
much to brave and unafraid to fall
shes so beautiful
beautiful and blind

Her heart is built to take it, my heart is complicated
She thinks love is an easy thing to find.

Her heart is built to take it, my heart is complicated
She thinks love is an easy thing to find. and i find
My heart has seen it all and her heart is beautiful and blind
Beautiful and blind
Beautiful and blind

Beautiful and blind

and i think shes changing my mind
