Twisted

Carnal Forge

I crawl deep within my self
I don't bear out with this pain
Why do i only feel hate
Why did you do this to meYou touched my innocent skin
You said it wasn't wrong
But when i close my eyes to sleep
I wish that you would feel my painI kill you in my thought
I strangle you in my dreams
You twisted sick fuck
I wish that you will dieYou touched my innocent skin
You said it wasn't wrong
But when i close my eyes to sleep
I wish that you would feel my painMy memories will never fade
They will always be there
What you did to me
I can never forgiveI crawl deep within my self
I don't bear out with this pain
Why do i only feel hate
Why did you do this to meYou touched my innocent skin
You said it wasn't wrong
But when i close my eyes to sleep
I wish that you would feel my painMy memories will never fade
They will always be there
What you did to me
I can never forgive
