World That Came Undone

Hidell

Ya I'm in love with everyone
Ya I'm here to soak up the sun
Ya I'm glad that I'm your number one
Do you know where I'm coming from

A world that came
A world that came undone
A world that came
A world that came undone

Along time ago
She was a girl next door
So I came through her window
She was lying on the floor
So we had fun
And my world came undone

Ya I was the only lonely one
I used to sit around twiddle my thumbs
I think my life has just begun
Do you know where I coming from
