

Where Is The Highway Tonight

Neil Young

I would be feelin' so low
She'd have a new place to go
She'd take me in her arms
Until my troubles were gone
And show me all her charms Then when I left her behind
Just a haunting melody
Comin' back to me
Never a tear could I find
Where is the highway tonight?
Where is the highway tonight?[CHORUS]
Where are those old days and crazy nights?
Now the house is all quiet and still Coyote house on the hill
Before we said hello
How far did I go Where is the highway tonight?
I'll never treat you unkind
Darlin', you'll always be mine
Keeps comin' back to me
But a haunting melody
Where is the highway tonight? Where is the highway tonight? Where are those old days and crazy nights?
[CHORUS]
Keeps cominn' back to me
A haunting melody
Where is the highway tonight
