Next Step

Midnight Storm & SunVox

(hall, stewart, wolk, baker)
I wanna go up where something matters
I wanna blow up where matter scatters
I wanna live into the future
I want to give... more girl
Next step
No side stepping this time
Cross over life on the line
One thing to talk big
Go to follow thru
All set
Got to get past the present too
Don't want to reach out for yesterday
Don't want to block the shock of the new
I wanna see what new love will bring
I'm gonna give all that love to you
What's the next step
My mind is open wide
Next step
What'll be the next step baby
What's the next step
I'm finished with the past
Next step
Won't be the last step baby
You wanna wake up with me beside you
You wanna shake off bad thoughts inside you
We're gonna walk on into tomorrow
We're gonna have more fun now
Don't look around for yesterday
No blocking out the shock of the new
Do you wanna see what new love can bring
I'm gonna give all that love to you
What's the next step
My mind is open wide
Next step

What'll be the next step baby
What's the next step
I haven't got a clue

Next step
Wanna make the next step with you
What's the next step
Gonna take it gonna take it
Next step
Gonna step right
Won't step back
What's the next step
No bad songs
No bad songs
Next step
Say hey
Don't you want to take the next step
Ring out the old
Ring in the new
Never know 'til I do what I'm gonna do
Say hey
I want to take the next step
Say hey
What's the next step
My mind is open wide
What'll be the next step baby
Next step
What's the next step
Ain't gonna be the last
Next step
Forget about the past
What's the next step
We've got to open up
When the next step comes along
I've got to follow thru
Take the next step with you
I wanna ring out the old and ring in the new
Come out of the cold
Take a step with you
