

# Next Step

## Midnight Storm & SunVox

(hall, stewart, wolk, baker)  
I wanna go up where something matters  
I wanna blow up where matter scatters  
I wanna live into the future  
I want to give... more girl  
Next step  
No side stepping this time  
Cross over life on the line  
One thing to talk big  
Go to follow thru  
All set  
Got to get past the present too  
Don't want to reach out for yesterday  
Don't want to block the shock of the new  
I wanna see what new love will bring  
I'm gonna give all that love to you  
What's the next step  
My mind is open wide  
Next step  
What'll be the next step baby  
What's the next step  
I'm finished with the past  
Next step  
Won't be the last step baby  
You wanna wake up with me beside you  
You wanna shake off bad thoughts inside you  
We're gonna walk on into tomorrow  
We're gonna have more fun now  
Don't look around for yesterday  
No blocking out the shock of the new  
Do you wanna see what new love can bring  
I'm gonna give all that love to you  
What's the next step  
My mind is open wide  
Next step  
What'll be the next step baby  
What's the next step  
I haven't got a clue

Next step  
Wanna make the next step with you  
What's the next step  
Gonna take it gonna take it  
Next step  
Gonna step right  
Won't step back  
What's the next step  
No bad songs  
No bad songs  
Next step  
Say hey  
Don't you want to take the next step  
Ring out the old  
Ring in the new  
Never know 'til I do what I'm gonna do  
Say hey  
I want to take the next step  
Say hey  
What's the next step  
My mind is open wide  
What'll be the next step baby  
Next step  
What's the next step  
Ain't gonna be the last  
Next step  
Forget about the past  
What's the next step  
We've got to open up  
When the next step comes along  
I've got to follow thru  
Take the next step with you  
I wanna ring out the old and ring in the new  
Come out of the cold  
Take a step with you
