

Girls With Boys' Names

TeamMate

She shoots down everything
Even your best intentions
She's never into it at all
Oh oh oh
You've heard them saying things
Whispers and breathless mentions
Your pattern's so predicatable You fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls I see what's happened here
Don't take the sharpest lenses
You just can't help yourself at all
On paper she's the one
In person you're dependent
On something less compatible You fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls You can't explain away
The cause of your attraction
When she says you're not her type at all
She sheds a single tear
Heartbreak is last year's fashion
And something purely chemical You fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names

Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls with boys' names
Girls with boys' names
Girls with boys' names
You fall you fall for girls
