

All For Your Love

Lions In the Street

* All For Your Love

I waited forty days “ for forty nights I cried.
Led by the wind and turned out in the wild.
Didn't feel your love, no warmth in the night.
Tossed by the waves “ not turned by the tide.

Can you see my love? On my knees every night.

I did it all for your love
All for your love

I waited for today, now I don't wanna die.
Led by my heart, with no one by my side.
Didn't feel your love “ no one to make it right.
Cast out by name and led out by the blind.

Can you see my love? Don't turn away your eyes.
I did it all for your love
All for your love.

Higher, Higher in Love alone.
Higher and higher we're free.
Higher, Higher you're not alone.

All for your love
All for your love
I set you free
