

One of a Kind

Stevie Wonder

There we were two lonely souls
Existing from day to day
Feeling bad love would never
Come our way Watching lovers share their bliss
Sadly wishing only if
Feeling that we had to live
Life like this But like a bolt of lightning
As when two stormy clouds collide
We made a joyful happening
To our lives Now, we're happy as can be
Me loving you and you loving me
Two hearts intertwined
Which makes us one of a kind Feeling the charge of a love evermore
Knowing that love is enough to live for
It feels so fine
Sharing love, one of a kind One of a kind now, baby
Your love and mine
One of a kind, sweet darling
Only with love is meant to be United love so fine
Living in love one of a kind
It feels nothing but fine
Sharing our love, one of a kind If we had a second chance
At living a second time
We'd change everything but our love
In our lives 'Cause like a big disaster
Lost in a never ending night
We light the light of magic
Made everything right, yeah Now, we're happy as can be
Me loving you and you loving me
Two hearts intertwined
Which makes us one of a kind Feeling the charge of a love evermore
Knowing that love is enough to live for
It feels so fine
Sharing love, one of a kind One of a kind, now baby
Your love and mine, such ecstasy
One of a kind, sweet darling
The only way love is meant to be One of a kind, now baby
Your love and mine such ecstasy
One of a kind, sweet darling

The only way love is meant to be One of a kind, now baby
One of a kind, oh baby
One of a kind, sweet baby
One of a kind, my baby, oh, one [Incomprehensible]
