

# Sometimes Love Is Fire

Tracy Johnson

There's a spark that smolders  
Lightning through your veins  
I've had lightning before  
It's the moment warm rain  
Becomes a hurricane  
Changing your whole world  
All in, I want violins  
I want shooting stars when we're apart  
Make up your mind, hop the fence and decide  
Sometimes love is fire  
It's a choice to walk on a tightrope or the ground  
When it's the windiest of days  
So close to heaven you could hear the angels singing  
So close to hell you might burn your feet  
All in, I want violins  
I want shooting stars when we're apart  
Make up your mind, hop the fence and decide  
Sometimes love is fire  
Sometimes love is fire  
Shooting stars are rocks on fire  
Falling through the atmosphere  
The magic is in believing the fall is worth the feeling  
Do you believe? Do you believe in falling?  
All in, I want violins  
I want shooting stars when we're apart  
Make up your mind  
Hop the fence and decide  
Sometimes love is fire  
Sometimes love is fire
