You Again

Tom Pacheco

I can't go anywhere
Without feeling strange
I can't see anyone
Everything has changed
'Cause every time I close my eyes
It's you again, you again
And every time I hear your voice
I don't know what to do with myself
You, you, you
Tum time, valentine
Waiting for my chance
Easy chat up lines
But do you dare to dance?
'Cause every time I close my eyes
It's you again, you again
And every time I hear your voice
I don't know what to do with myself
You, you, you
Don't know what to do with myself
You, you, you
Don't know what to do with myself
Die, apart or die
Die, am I
Die, apart or die
Do I for my
'Cause every time I close my eyes
It's you again, you again
And every time I hear your voice
I don't know what to do with myself
Don't know what to do with myself
I don't know what to do with myself
