

Always (Chicane Remix) [feat. Rob Dickinson]

BT

There's nothing for us
In this one horse town
You make your own luck
In a one horse town
We live in a place they forgot to go down
How many escape from a one horse town
If it were me I'd be always running
Always running with you, always
We're gonna be always together
Always running, always
Always Same old dreams of escape again
Our same old dreary fate again
That one horse town belays again
Let's take to the streets so we can breathe again
And we scream our names to the heavens and the plains
Then we'll run like hell and get clear of this place
We'll have more of raging hearts than graves
But I'd take that any day, always
If it were me I'd be always running
Always running, with you, always
We're gonna be always together
Always running
Always, always We'll scream our names to the heavens and the waves
Then we'll run like hell and get clear of this place
We'll have more raging hearts than graves
But we won't care
We'll be always running
Always running, with you, always
We're gonna be always together
Always running 'Cause we are far from lost on this dance floor
Freedom drives us crazy
