## All My Days

## **Alexi Murdoch**

Well I have been searching all of my days

All of my days

Many a road, you know

I've been walking on

All of my days

And I've been trying to find

What's been in my mind

As the days keep turning into nightWell I have been quietly standing in the shade

All of my days

Watch the sky breaking on the promise that we made

All of this rain

And I've been trying to find

What's been in my mind

As the days keep turning into nightWell many a night I found myself with no friends standing near

All of my days

I cried aloud

I shook my hands

What am I doing here

All of these days

For I look around me

And my eyes confound me

And it's just too bright

As the days keep turning into nightNow I see clearly

It's you I'm looking for

All of my days

Soon I'll smile

I know I'll feel this loneliness no more

All of my days

For I look around me

And it seems He found me

And it's coming into sight

As the days keep turning into night

As the days keep turning into night

And even breathing feels all right

Yes, even breathing feels all right

Now even breathing feels all right

It's even breathing

Feels all right
