Wrong All Along

Cheap Trick

Been wrong all along
I've been wrong all along
You never hit me more than lightenin'
I can't understand it myself
I guess I was wrong, now that you're gone
I have to get it on with somebody else
I've been wrong all along
I've been wrong all along
Like a death at the party's alright?
It's hard to survive on a Saturday night
I've been wrong all along
I've been wrong all along
So you're feelin' alright now
I'm not feelin' too good
You put me on ice
You better think twice
Takin' it out on a Saturday night
I've been wrong all along

I've been wrong all along
Like a death at the party's alright?
You ruin my fun on a Saturday night
I've been wrong all along
I've been wrong all along
Heaven's fallin', I keep callin', you keep stallin'
You're more than lucky if you get out alive
I've been wrong all along
I've been wrong all along
Like a death at the party's alright?
It's hard to survive on a Saturday night
I've been wrong all along
I've been wrong all along
Well it's Saturday night, it's hard to survive
I'm gettin' it on with my baby tonight
It's hard to tell, it's all in your mind
Seems to be all my life it's really gone to hell
