With You (feat. Lilja Bloom)

Parov Stelar

I wanna see the fire burn
I wanna feel the heat again
I wanna feel that I'm alive
I wanna hear my heart beatingAnd when I'm down again
You smile and hold my hand
I want to reach you
and feel love in another dimensionJust won't let it be
Just won't let it be
Just won't let it be
Honey when I'm with you
It takes some time to get me there
The journey's long I'm in a hurry
Oh I see you really care
And when I'm down again
You smile and hold my hand
I want to reach you
and feel love in another dimensionJust won't let it be
Just won't let it be
Just won't let it be
