Anyway U Want It (feat. Keon Bryce)

Ms. Dynamite

So many girls I know
Don't wanna let me go
That is the reason why
Me and you just flow
It's like you make me glow
Soon as I see you, child
Yes, you drive me wild
Wit' your ebony smile
You are, you are, you are something specialSo anyway you want it, you want it
You know I'll always try
When you need it girl
I will provide
You know I love it love it
Havin' you by my side
Stay together girlI never tasted such a sweet kissin'
I never felt so much tenderness in
And he got me weak he's gone five minutes and I miss him
I'm feelin' deep baby sit down and listen
Anytime that you ain't here you got me feelin'
For your love it feels so good it's like I'm dreamin'
Just your touch has got my heart screamin'
It's crazy baby what ya got me feelin'So anyway u want it boy
You know I'll always try
And when you need it
I will provide
You know I love it love it
Havin' you by my side
Let's stay together againI know something I do see
Baby you got that love I need
You're the only one that can set me free
Boy I'll love you eternally
I don't need nobody baby
I really want you to know I love you crazy
I don't need nothin' besides
Havin' you in my lifeYou know I'll always try
And when you need it girl

You know I love it love it
Havin' you by my side
