

Last Night (LVRS ANTHEM)

Theophilus London

... on my feet, I get... on repeat
Like... shit... came in a fucker's street
And another... I'm loving that
we got ... call up, ... call up
...we call shots
when I go in, it's all...
y'all don't want cause y'all won't win
fuck it, whatever situation you're in
...and acknowledge them
Teach us and inspire them
become with us until this end
... truly a sin
Got that good drink in my cup
Got that purple, roll it up
See that party from last night,
It got me fucked up, ah
... do my thang, then i'm ... drunk
...got me bumped up
Cause I don't wanna ride, the feeling alike
I'm on the ride, the feeling's alike
Got that good drink in my cup
Got that purple, roll it up
See that party from last night,
It got me fucked up, ah
... nigga wassup?
See that party from last night,
It got me fucked up, ah
Show your nasty side, show your nasty
Show your nasty side, show your nasty
Show your nasty side girl, show your nasty
Show your nasty, show your nasty, show your nasty
I've be hitting that back all night girl yeah it's numb, numb
It's a new shit for the year, watch the club go dumb, dumb
Kicking that new when we go to... speeding up like the beat in the drum, the drum
It's Brooklyn baby, no introduction, no recital...
That's your revival... New York is vital...
Wake up, look in the mirror
I see the image of a nat born killer
... but I know a road that can make us iller

Make us kill, make us realer
... I'm just fly...
Mama don't curse, papa don't curse
You said boy you better watch your tongue
... sleep all day, drinks in the night
... I sell ... ah,
Got that good drink in my cup
Got that purple, roll it up
See that party from last night,
It got me fucked up, ah
... do my thang, then i'm ... drunk
...got me bumped up
Cause I don't wanna ride, the feeling alike
I'm on the ride, the feeling's alike
Got that good drink in my cup
Got that purple, roll it up
See that party from last night,
It got me fucked up, ah
... nigga wassup?
See that party from last night,
It got me fucked up, ah
Got that good drink in my cup
Got that purple, roll it up
See that party from last night,
It got me fucked up, ah.
