Takes Me Down

Treble Charger

I mention this in passing twice
I'll hold my tongue as long as nothing understood is nice
It's just my way to criticize
I understand a little less than maybe's wiseIt really takes me down
(I always like to begin with)
It really takes me down
(Everything's mind all along)I promise not a sound
(Say something that I'll remember)
'Cause it really takes me down
(Something is turning out wrong)I need convincing long before
I'll disregard a few things
I'll allow a few things more
It's all the time I can afford
Not to expect much in the way of our reward
