

# Stagefright (Acoustic)

Hawk Nelson

Every time when I close my eyes  
I catch a glimpse of the west coast sun-rise  
And I can tell you, you're just as beautiful Overwhelmed by the fear and stage-fright  
You're the only one in my spot-light  
Even when you don't feel so beautiful We've got one chance, We've got one chance  
We've got on chance to shine, to shine Still awake at the start of daylight  
I miss you bad, but I swear I'm alright  
I'll see you soon, when the leaves turn colorful I see your face in my own reflection  
Scan the crowd but there's no connection  
With out you, nothing feels like home We've got one chance, We've got one chance  
We've got on chance to shine We've got one chance to make things right  
We've got on chance to shine, to shine, to shine, to shine We've got one chance to make things right  
We've got on chance to shine We've got one chance, We've got one chance  
We've got on chance to shine
