The Units

Welcome to the mission
My music has got to get what it rightfully deserve
Shaggy
My music got me on a mission, I'm following my intuition
Why don't you check the composition
With this ya music when it hit you, say you feel no pain
My music got me on a mission, I'm following my intuition
Why don't you check the composition
With this ya music when it hits you
My music is my mission, I'm here to take it around the world
To get the global recognition that we fully deserve
To every man, every woman, little boys, little girls
Embrace the sweet reggae culture, there's a lot more to learn
You could a be from the east, could a be from the west
Could a be from the north, so could a be from the south
No matter where down in a the world
Shaggy will be at your doorstep
