Big Sister

Dio

Who controls your mind?There have been changes
No more giving it all for free
There will be changes
Now woman is all you'll needHere is a number
You've been given another name
We will be watching
One might fall but you'll all be blamed
Shame, shameHere's big sister
We're big sister
Hear, big sister
There's big sister
Dancing on your graveWho controls your mind?
Who's in charge of hearts?
Who controls your time?
We're in charge of youThere have been changes
Even mother's a soldier now
There have been changes
You can touch 'cause
You don't know how, noHere's big sister
We're big sister
Hear, big sister
There's big sister
Dancing on your gravePretty faces, young and clean
Watching you from magazines
All they want is something more
Kill the King and then we'll crown the whoreHere's big sister
We're big sister
Hear, big sister
There's big sisterWho controls your mind?
In charge of hearts
Controls your time
In charge of you
Here's big sister
We're big sister, control
