Everything Is Everything

Cappadonna & Rhyme Recca

Things are gonna change
And not for better
Don't know what it means to me
But it's hopeless, hopeless.
Gotta get you home
Could be with anyone
I think of what I've done
Oh, you know it all.
Everything, is everything
The more I talk about it, the less I do control.
Everything, means everything
Can't understand a word, half of the stuff I'm sayin.
The things I do possess
Sometimes they own me too
What they gonna do to me
I think it's hopeless, hopeless.
What I can't explain
I'm sure you get it well
Ah, since I always wanted

I always wanted you.
Everything, is everything
The more I talk about it, the less I do control.
Everything, means everything
Can't understand a word, half of the stuff I'm sayin.
Riding low, Riding low, Riding faster.
This is what I want; look at what it did to me.
Riding low, Riding low, Riding faster.
This is what you want; this is what you get instead.
Riding low, Riding low, Riding faster.
This is what you want, I always wanted you.
Everything, is everything
The more I talk about it, the less I do control.
Everything, means everything
Can't understand a word, Half of the stuff I'm sayin.
Riding low, Riding low, Riding faster.
The more I talk about it, the less I do control.
Riding low, Riding low, Riding faster.
Can't understand a word, half of the stuff I'm sayin.
